

RONDEAU'S REFRIGERATION

Rondeau's Reliability Program

Rondeau's Reliability Program has been developed to protect the valuable reputations of our commercial clients by ensuring HVAC equipment maintains optimal climate conditions for residents and tenants alike.

When you Rely on Rondeau's, experienced technicians will complete the following inspections and maintenance tasks bi-annually.

Residential and Commercial Maintenance

- Check operation of equipment
- Check blower belt, wear, tension and adjustment as needed
- Check bearings are lubricated as needed
- Check electrical
- Check voltages
- Check contactors for wear and pitting
- Check refrigerant
- Check air filters—clean or replace as needed
- Check overall shape and condition of system and advise customer of any problems

Rely on Rondeau's to maintain your equipment.

Rondeau's installs, repairs and maintains all the big brands in commercial HVAC- R equipment. As a subsidiary of Alscott Air System, Rondeau's also offers custom HVAC-R design and manufacturing.
